## Online Testing & Assessment Services

## About the Vertical

EdCIL, with over two decades of experience in conducting recruitment examinations, seamlessly migrated to computer - based tests for the Central and State Government Departments, Autonomous Bodies and Public Sector Enterprises for recruitment of various level of staff and personnel.

Computer-based examinations are also conducted for recruitment of teachers and non-teaching staff as a specialized service to autonomous bodies viz., Kendriya Vidyalaya Sangathan and Navodaya Vidyalaya Samithi using automated, secured, and transparent assessment processes. This includes a wide range of services such as - developing application portal for accepting applications online, conducting computer based

examination, evaluation, tabulation, and handover of results.

EdCIL has assessed about 1.5 crore candidates across India for recruitment to various Public Sector Enterprises, State and Central Government Departments and Autonomous Bodies (such as Kendriya Vidyalaya Sangathan, Navodaya Vidyalaya Samithi, Central Board of Secondary Education and many more).

## Key Advantages

### Secured:

EdCIL's online testing and assessment process is secured and has an in-built content security system. Critical services offered by EdCIL include capturing biometric identity through thumb impression/facial recognition, CCTV coverage, installation of low-cost jammers during conduct of examination. In addition, EdCIL encrypts and transmits the relevant question papers to the servers in centres only at the time of the assessment.

### Quick:

EdCIL's online testing and assessment solution has shortened the time cycle (approximately 90-100 days) for the entire examination process, including the preparation of results. This speeds up the processes of hiring and assessment to a large extent.

### Real time monitoring:

The online testing and assessment solution incorporates monitoring tool which is almost in real time sync with the examination process and updates on pre, during and post examination activities. The monitoring tool displays the number of mapped candidates, present/absent candidates at every test centre. The monitoring tool also indicates the number of candidates for whom the examination has started or got delayed. It further provides a complete dashboard and downloadable reports in prescribed formats.

### Multi-disciplinary expertise:

EdCIL has conducted examinations covering multi-disciplinary areas for hiring of teachers, engineers, scientists, paramilitary, doctors, paramedical staff, steno, other administrative staff etc.

### Pan India coverage:

EdCIL has the capacity to undertake examination across the country with a capacity to assess more than 1 lakh candidates in single session.

### User friendly:

The solution is easy to use for candidates. EdCIL provides mock test link to enable the candidates to prepare for the examinations and familiarize with the system interface.
