About Vidya Samiksha Kendra (VSK)

Vidya Samiksha Kendra (VSK) is a nationwide programme launched by the Ministry of Education, Government of India. VSK is aimed at leveraging data and technology to bring a big leap in learning outcomes. This can cover data of approx. 15 thousand schools, 56 thousand teachers and 10 lakhs students, and analyze them meaningfully using big data analysis, artificial intelligence and machine learning to enhance the overall monitoring of the education system and, thereby, improving learning outcomes. The ability to effectively collect, monitor, correlate, and analyze data will lead to timely actions to implement schemes. Various initiatives of the Ministry of Education like UDISE, Student Database, NAS, NIPUN Bharat, Teacher Database, DIKSHA etc. are efficient systems that operate in silos. Integrating various data sets and breaking through the barrier of operating in isolation will help to effectively leverage different entities toward a common goal.

NDEAR Complaint VSK Starter Pack

As per the NDEAR Compliant VSK Principles and Guidelines, the starter package of VSK includes three components viz., open-source software, physical infrastructure and PMU.

Open-source Software

Ready to install open-source software, that enables data ingestion, analysis, and visualization that comes as a part of the starter pack and is also further configurable. While developing the software, CIET-NCERT leveraged and contributed to NDEAR building block “Open data and Analytics”. Their objective was to ensure that the solution developed is open-source, expandable, shareable and reusable by all the states/UTs, central agencies and many other participants in the education ecosystem. To adhere to the “Technology architecture principles” of NDEAR, the software is built on open-source, and using open-standards, evolvable, emit data by design, enables distributed observability for data-based decision making, action ability, unbundled and combinable, provides choice by design,

federated and interoperable, ecosystem driven, leverages and unifies existing systems. The software comes with 6 pre-configured programs for the states. These are:

- UDISE
- DIKSHA
- Performance Grading Index (PGI)
- National Achievement Survey (NAS)
- PM POSHAN
- NISHTHA
